Directions

1. Open an existing picture.
2. Pick the Warp Brush tool  and use the following settings:

3. Change your **Warp Brush**  tool mode to "Contract". Then, apply a contract on the forehead.

4. Duplicate background layer (**Layers>Duplicate**).
5. Then, run the **Color Sketch Script** on the "Copy of Background" Layer. The Color Sketch script came bundled with versions 8, 9 and X. To view the script toolbar, (**View>Toolbars>Script**)

6. Your Layer Palette should look similar to the image below after applying the Color Sketch script. Hide the background layer and then merge all visible layers (**Layers>Merge>Merge Visible**).

Hide Background Layer

7. Toggle on Background layer's visibility. Then, change Merged layer's blend mode to Overlay.
